
Nanotechnology Publications: Number and Annual Growth Rate of Nano-articles (2000-2022)

2023-05-02

According to the figure above, approximately 2.5 million articles related to nanotechnology have been indexed in WOS over the last 22 years. Among them, 230,000 articles have been published in 2022. The steadily increasing trend is observed for the number of published nanotechnology-related articles (annual growth of about 12.6%). However, this trend has been decelerated in recent years.
